5. My own opinion, after going over the building, is that the tablet should not be anywhere inside the hospital where it is likely to attract the attention of the nurses or other members of the establishment on duty, or of the patients.

The fate of the Nurses is an unpleasant reminder to persons of weak nerves.

I should place it either in
the reading room or any other

But I may add that the medi-

for the tablet seem to have unani-
mously decided to fix the tablet
in the ante-room attached to the
Clinical Laboratory as will be
seen from Dr. Achyutha Rao's do

OFFICE OF THE SENIOR SURGEON WITH THE
GOVERNMENT OF MYSORE.

Bangalore, July 5th, 1911

Dear Mr. Krishna Iyengar

Mr. Y. Srinivasa Rao's D.O. No.

218 dated 24th June 1911

I had no opportunity to go over to the Victoria Hospital earlier than now after the receipt of the above noted D.O.

I find from office records that the members of THE MYSORE MEDICAL ASSOCIATION who bear the cost of the tablet, headed by Col. J. Smyth, M.D., I.M.S., have decided upon erecting it "in the ante-room attached to the present Chemical Laboratory on the

first

first floor" and Colonel Smyth has addressed the Government for sanctioning the same.

Under the circumstances, I do not think any alteration of the place need be contemplated.

I return the plan forwarded by Mr. Y.Srinivasa Rao with his D.O.

Yours sincerely,

Offg Senior Surgeon.
